DETAILED ACTION

1. According to paper filed on June 25, 2004, the applicants have amended claim 22.
2. Claims 22-27 are pending in the application.

Response to Arguments

3. Applicant's arguments filed on June 25, 2004 have been fully considered but they are not persuasive regarding written description requirement. The examiner does not agree with the applicants arguments that application 08/552,584, now PAT 6,171,576 contain a reduction to structural chemical formulas of the invention as claimed in the present application. The compounds of formula (I) of this PAT differ in structure from the instant compounds since Nitrogen atom of the bicyclic ring is attached to Ch, a tridentate or tetradentate chelating ligand through a linker L (see col. 4, lines 5-35). Also, there is no mention of hydrogen as a substituent for the Nitrogen atom in the bicyclic ring in this PAT. All the exemplified compounds in this PAT including example 8 are directed to neutral labeled complex (radiopharmaceutical compounds) in which tropane compound is linked through the N atom at the 8-position to a chelating ligand capable of complexing technetium or rhenium. Thus, these compounds are structurally different than the instantly claimed compounds.

Conclusion

4. Rejection under 35 U.S.C. 112, second paragraph is now withdrawn in view of amendment.
5. Rejection under 35 U.S.C. 112, first paragraph is maintained for the reasons of record.

6. Rejection under 35 U.S.C. 102(e) is maintained for the reasons of record.
7. Rejection under 35 U.S.C. 103(a) is maintained for the reasons of record.
8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
